EDUCATION

Gramin Technical and Management Campus, Nanded **2021 – 2025**
B.Tech - Computer Engineering - ***CGPA - 7.68*** *Nanded, India*

Degloor College, Degloor **2020 – 2021**
Class XII - Science - ***Percentage - 82.33*** *Degloor, India*

Sadhana High School, Degloor **2018 - 2019**
Class X - ***Percentage - 76.40*** *Degloor, India*

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL
Backend: Django, FastAPI, REST APIs
Frontend: HTML5, CSS3, React.js, Bootstrap 5
Databases: MySQL, SQLite
Tools: Git, GitHub, VS Code
Core Concepts: OOP, Data Structures & Algorithms, SDLC, Google Cloud, AWS, NLP

PROJECTS

Revora - Automotive Web Platform | Python, Django, Bootstrap 5, SQLite **August 2026**

- Built a full-stack CRUD app in Django to manage a vehicle catalog, with separate modules for authentication and inventory.
- Added login-based permissions — only authenticated users can add, edit, or delete listings; browsing stays public.
- Deployed to a production server, handling environment config and static files.
- Made the UI responsive with Bootstrap 5, including a collapsible mobile navbar.

Fake News Detection using Machine Learning | Python, NLP, Scikit-learn **January 2026**

- Built a text classification pipeline using TF-IDF and supervised machine learning to identify fake and real news.
- Trained and evaluated a Passive Aggressive Classifier on a labeled news dataset using classification metrics.
- Analyzed model performance using a confusion matrix and evaluation metrics on test data.

Full Stack Notes App | Python, Flask, JavaScript, HTML5, CSS3 **May 2025– June 2025**

- Engineered a notes app with a JavaScript frontend and Flask REST backend.
- Used AJAX to handle note creation, editing, and deletion without full page reloads.
- Added server-side validation on Flask routes for reliable CRUD operations.

CERTIFICATIONS

- Oracle OCI AI Foundations Associate - Oracle
- Microsoft Certified: Azure AI Fundamentals - Microsoft
- Microsoft Azure Fundamentals - Microsoft
- NPTEL – The Joy of Computing with Python - NPTEL

ACADEMIC AND EXTRACURRICULAR ACHIEVEMENTS

- **Deloitte Australia Data Analytics Virtual Experience — May 2025:** Analyzed large datasets using Tableau, Excel, and SQL to generate business insights.
- **IIT Bombay Pragyaa 2024 Technical Workshop:** Completed training in AI/ML (Neural Networks, Data Processing) and Problem-Solving.
- **TCS CodeVita Coding Challenge:** Secured a rank under 2500 among participants, demonstrating strong problem-solving and coding skills.
